

**UTP Ground Loop Isolator  
Model Number: SJ-TP1**

**Product Description:**

SJ-TP1 is a passive UTP ground loop isolator and only put at control end (receiving end). It is a good solution for ground loop interferences.

**Product Feature:**

- ◆ Transmission distance of color signal via CAT5 or CAT6  
Up to 300m (1000 ft) with passive transmitter
- ◆ No need to provide power
- ◆ Only put SJ-TP1 at control end (receiving end)
- ◆ Built-in unique video isolation transformer and passive isolation circuit, connecting two equipments via magnetic circuit, effectively cut ground-loop circuit current
- ◆ Built-in transient protection

**Product Terminal and Dimension Introduction:**

**Product Installation Instructions:**

---

- ◆ Connect the video signal to BNC terminal of transmitter.
- ◆ Selected a pair of UTP Cable (must be same color) connect to the transmitter VIDEO +/- port and receiver VIDEO +/- port.
- ◆ Connect the video signal of receiver to display device.
